4.4.2 Procedures and policies for maintaining and utilizing physical, academic and support facilities laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

Physical facilities:

The infrastructure pertaining to physical, academic and support facilities in college are regularly maintained to ensure that they are of maximum benefit to the students, teaching and non-teaching staff. Classrooms equipped with teaching A-V aids like smartboard etc. supplement teaching-learning process. Seminars, workshops, lecture sessions are also conducted in the class rooms.

Academic and support facilities

There are various support facilities like Library, Sports, Website Development, Gardening, Cafeteria, to ensure proper regular maintenance & upkeep. Regular monitoring for optimum use of infrastructure which is accessible to students and staff.

Laboratory:

Students make extensive use of lab facility for routine experiments as a part of curriculum. Students are encouraged to perform various experiments. Well-equipped laboratories with suitable Technical Assistant, Lab Assistants and Lab Attendants to ensure proper running of the various labs. Students utilize phantom-head lab during preclinical course before entering to clinics. The campus is well equipped with high end equipment like;

CBCT-radiographic imaging method that allows accurate, 3D imaging.

ENDOMICROSCOPY- allows in vivo high-resolution imaging deep within the tissue in a minimally manner.

PENTAHEAD MICROSCOPE- Equipped with 5 Heads for 5 persons observing at the same time with the features of effective illumination, LED pointer and images coherence, used in clinic, research & teaching demonstration

SMARTBOARD- classroom tool allows images from computer screen to be displayed onto a classroom board.

ELISA- biomolecular technique that utilizes specificity of an antibody, as well as sensitivity of enzyme assays, to detect and quantify molecules such as hormones, peptides, antibodies, proteins.

STERIOMICROSCOPY- to study the surfaces of solid specimens or to carry out close work

Classrooms:

Most of the lectures take place in classrooms with HD projector, Smartboard, microphone and speakers. This is to ensure usage of new A-V pedagogical techniques during the teaching process. A well-equipped classroom with proper monitoring gives a state of art of service to student.

Computers:

A Computer Lab has been set & the College information and communication technology aid in maintenance of computers network facilities in the College. It also includes College website, up-gradation, biometric services, procurement of hardware and software and other items related to computers. Students utilizes ICT lab facilities for various projects.

Library

The librarian supervises the functioning of the library and various other body coordinate with each other. Internet facility is provided in the library and students can access the facility for availing e-resources and other web-based information. Library well equipped books, journals, E-journals, E-books & newspaper in the reading rooms and working area with regular updates & power backup facilities.

Canteen:

A student friendly canteen with healthy food and maintaining all cleanliness in the college vicinity. Hygienic food is made available at affordable rates.

Sports complex:

Sports and Games is an integral part of the college & provision for the students. There is an open-air theatre where cultural activities are performed. For maintenance of a clean campus environment, skilled staffs are assigned. Solar panels and garbage segregation in the hostel and residential area take care of the environmental needs. For maintenance of a clean campus environment, skilled staffs are assigned to various jobs and duties
