---

Lenora Institute of Dental Sciences has an International Student Services Cell (ISSC), dedicated to providing essential support for international students pursuing undergraduate or postgraduate studies at the institute. The primary function of this cell is to offer assistance in various facets of their academic journey. This includes aiding with accommodation arrangements, facilitating seamless travel logistics, and ensuring compliance with government regulations for foreign students.

Furthermore, the ISSC plays a pivotal role in helping international students integrate into Indian society, enabling them to familiarize themselves with Indian culture, lifestyle, sports, social events, and the local demographic details of nearby villages. The goal of this ISSC is to create a welcoming and inclusive environment where international students can thrive.

To ensure that the needs of international students are met promptly and comprehensively, the ISSC conducts periodic meetings. These meetings are a platform for students to voice their concerns and seek assistance as and when required. It's worth noting that while the ISSC is proactive and well-prepared, there are currently no international students at our institute. However, when they do arrive, they can rest assured that Lenora Institute of Dental Sciences is committed to making their experience both comfortable and safe.
