

**7.1.1(3) CERTIFIED LIST OF GENDER  
EQUITY PROGRAMS ORGANISED BY THE  
INSTITUTION ALONG WITH THE  
RELATED DOCUMENTS DURING THE A.Y.  
2019-20**

The word 'Women Empowerment' itself implies that women are not powerful enough - they need to be empowered. This painful truth has been in existence for a long time. It is in recent years that noticeable work started beginning to lift women out of the abyss of insignificance and powerlessness. The patriarchal society suppressed women's freedom across the world. Women were not allowed to vote or even put forward any opinion. Women were confined to their homes. As time progressed, they realized that their life meant much more than just serving in the household. As more and more women started crossing man-made barriers, the world began to witness the rise of women. Unlike men, women never try to stifle the voice of the opposite gender. They hold the hands of all the downtrodden people - men and women both - and they pull them out of misfortune as they try to improve their lives.

No woman can be empowered if she is not financially independent. Gone are the days when women had to depend on their fathers or husbands to get things that they wanted. From the 20th century onwards, women got more opportunities to join the workforce. However, at the same time, many women in England were forced to work both in the workplace and in the household to support the family. After the Second World War women, on their own, chose to join the workforce. Today more and more jobs are opening for women. Women are proving to be worthy of the designations assigned to them.

Women empowerment in India cannot be compared with that in other countries. Women were highly respected in the Vedic ages. The focus on women's education was never absent. The word 'sahadharmini' was known from the Vedic days. Sahadharmini means - equal partner. It is thus very clear that women in India in ancient days enjoyed respect, education, and reverence. As time passed the Indian culture was contaminated with the conservative Middle Eastern and British culture. As a result, the power and respect that women enjoyed were lost. Gradually after independence, women started regaining the lost power. Today women are

everywhere. The country saw its female Prime Minister and President, the country has many eminent female sportspeople like Saina Nehwal or P.T Usha, the country has been blessed with talented women scientists like A. Chatterjee or B Vijayalakshmi. Women are joining the combat forces in India without any hesitation. However, many women in India are still finding it hard to come out of the clutches of patriarchy - particularly in the rural sector. The empowered women must urge these women to raise their voices, protest, and seek help from the authorities.

**LIST OF ACTIVITIES FOR THE YEAR 2019-2020**

<b>S.NO</b>	<b>TITLE OF THE PROGRAM</b>	<b>DATE AND DURATION</b>
<b>1.</b>	FUTURE OF GENDER NORMS	04-07-2019 (03:00 PM TO 4.00PM)
