## REPORT AFTER CONDUCTING THE MEETING ON AIDS DAY

DECEMBER 2021

HIV remains a major public health issue that affects millions of people world wide .Every year, on December 1<sup>st</sup>, the world observes World AIDS Day. People around the world unite to show support for people living with and affected by HIV and to remember those who lost their lives due to AIDS.

This World AIDS Day, UNAIDS is highlighting the urgent need to end the inequalities that drive AIDS and other pandemics around the world. Forty years since the first AIDS cases were reported, HIV still threatens the world. Today, the world is off track from delivering on the shared commitment to end AIDS by 2030 not because of a lack of knowledge or tools to beat AIDS, but because of structural inequalities that obstruct proven solutions to HIV prevention and treatment. The theme of world AIDS Day 2021is “End inequalities.End AIDS”. With a special focus on reaching people left behind,WHO and its partners are highlighting the growing inequalities in access to essential HIV services. Meeting was conducted and explained about the modes of transmission and precautions to be taken while treating the HIV patients. PEP (Post Exposure Prophylaxis) is explained and motivated the students about the theme of WHO.

## REPORT AFTER CONDUCTING THE MEETING ON

### AWARNNESS ON COVID 19 PROTOCOLS JAUNARY 31 -2022

The students of Lenora Institute of Dental Sciences conducted a special programme on 31st of January, 2022 as a part of Awariness on covid 19 protocols, The vital subject of the event was to focus on “prevention is better than cure” which witnessed participation of around 60 – 90 students .

The event began with explaining the preventive measures on covid 19 among children COVID-19: safe schools

To help schools reopen and stay open and safe, teachers, school staff, parents and students should follow the ‘do it all’ approach to reduce the risk of COVID-19 transmission:

- Maintain a distance of at least 1 metre
- Keep hands clean
- Wear a mask indoors, and outdoors when physical distancing isn’t possible
- Cover coughs and sneezes when not wearing a mask
- Open windows and doors to ventilate classrooms and common areas
- Get vaccinated when it’s your turn
- Remember to stay home when you are feeling unwell.

Everyone can play their part to keep schools open and safe.

### ANTI CANCER FEBRUARY 4 - 2022

The students of Lenora Institute of Dental Sciences conducted a elegant event on february 4<sup>th</sup>, 2022 as a part of ANTI CANCER DAY, The vital subject of the event was to focus on “close the care gap” which witnessed participation of around 50-60 volunteers.

National cancer day is observed on 4<sup>th</sup> february of every year. In view of it a dental team consisting of faculties, postgraduates and interns from the Department of pedodontics and preventive dentistry Department of Public Health Dentistry and Department of Oral medicine and radiology conducted a free oral cancer screening and awareness camp for patients A total of 100 patients were screened for the presence of oral cancer, precancerous lesions and conditions. Tobacco cessation counselling and free nicotine chewing gums were given to tobacco users as a part of the program and those who were diagnosed with precancerous lesions and conditions were referred to lenora Institute of Dental Sciences for further management. Health education was given to create awareness about the ill-effects of tobacco and the importance of maintaining good oral hygiene.

## REPORT AFTER CONDUCTING THE MEETING ON

### National science day 28 February -2022

The students of Lenora Institute of Dental Sciences conducted a special event on 28<sup>th</sup> february 2022 as a part of national science day, The vital subject of the event was to focus on “**Integrated Approach in science and technology for Sustainable Future**” which witnessed participation of around 100 students.

This day mainly aims to propagate the message of the importance of science and its application among the people throughout the life. This event began with conducting various science projects and programs by the children which enhance and encourage innovative ideas,activities by infusing scientific temperament among children,people visited to this event. National Science Day is distinguished to spread a notable message about the importance of science used in the daily life of the people. This event was a great platform for students to create awareness of Science and Technology. Our champions exhibited various Science projects, models, charts based on Programme of Inquiry and Science Fun Activities. Students exhibited their learning of concepts through experiments that included model on different types of energy, human body systems and solar systems. Younger students who visited the stalls were thrilled to understand complex systems through simple models and charts.

## REPORT AFTER CONDUCTING THE MEETING ON

### International womens day march 8 -2022

The students of Lenora Institute of Dental Sciences conducted a special event on 8th of march, 2022 as a part of international womens day, The vital subject of the event was to focus on “GENDER EQUALITY TODAY FOR A SUSTAINABLE WOMEN” which witnessed participation of around 70 -100 girls.

Women’s Day celebration began with a beautiful and thoughtful prayer service Keeping in view the growing imbalance in the man-woman ratio, we have to emphasize focusing on celebrating and welcoming girl child. To get rid of vicious social customs of dowry system responsible for killing of girl child, the status of women shall have to be enhanced. we now understand the vital link between gender, social equity and climate change, and recognize that without gender equality today, a sustainable future, an equal future, remains out of reach. Sp latha Madhuri garu is invited as a chief guest madam gave a motivational speech for women empowerment.

Women and girls experience the greatest impacts of the climate crisis as it amplifies existing gender inequalities and puts women’s lives and livelihoods at risk. Across the world, women depend more on, yet have less access to, natural resources, and often bear a disproportionate responsibility for securing food, water, and fuel. As women and girls bear the burden of climate impacts, they are also essential to leading and driving change in climate adaption, mitigation and solutions. Without the inclusion of half of the world’s population, it is unlikely that solutions for a sustainable planet and a gender equal world tomorrow will be realized.

## REPORT AFTER CONDUCTING THE MEETING ON

## HEALTHY MOUTH FOR HAPPY SMILES MARCH 12 - 2022

The students of Lenora Institute of Dental Sciences conducted a camp on 12th of march, 2022, The vital subject of the event was to focus on "oral health" which witnessed participation of around 90-100 volunteers.

The Camp aimed at improving public awareness on oral health and hygiene through healthy eating, proper brushing and flossing, and visiting the dentist regularly. The camp was initiated with dental awareness talk, educating students about common dental ailments, especially stressing on tooth decay and gum diseases and measures to prevent from them. The students were highlighted about the eating patterns and food choices which cause tooth decay. The surgeons also highlighted about the possible formation of harmful acid which develops when bacteria (plaque) get in contact with sugar in the mouth which ultimately results in tooth decay. The students got ample opportunities to interact with the dental surgeons to enquire and gain knowledge concerning oral diseases.

## REPORT AFTER CONDUCTING THE MEETING ON

### NATIONAL VACCINATION DAY

MARCH 16 - 2022

The students of Lenora Institute of Dental Sciences conducted a elegant event on March 16th, 2022 as a part of NATIONAL VACCINATION DAY, The vital subject of the event was to focus on Vaccination which witnessed participation of around 30-40 volunteers.

National Vaccination day is observed on 16<sup>th</sup> march of every year, to acknowledge and appreciate the hard work of frontline health care workers to ensure the vaccination of every child. India has made remarkable progress in scaling up the routine immunization through intensify vaccination drives. In view of it a dental team consisting of faculties, postgraduates and interns from the Department of pedodontics and preventive dentistry Department of Public Health Dentistry and Department of Oral medicine and radiology conducted a free vaccination programme and awareness camp for patients. A total of 100 children were vaccinated on this day. Children who are not vaccinated were referred to Lenora Institute of Dental Sciences for further management.

## REPORT AFTER CONDUCTING THE MEETING ON DENTAL CAMP FOR SPECIAL NEEDS CHILDREN MARCH 2022

The students from Department of Pedodontics and Preventive Dentistry of Lenora Institute of Dental sciences conducted a special event on March 2022 as a part of "WORLD DOWN SYNDROME DAY." The main subject of this event was to focus on the theme "WE DECIDE". The main aim of this event is to provide a health education for the children with downs syndrome who cannot maintain the oral hygiene properly. Down syndrome children are those with chronic physical, developmental, behavioral or emotional conditions. They usually have limitations on daily activities, and require more extensive dental and medical services. Individuals with downs syndrome have specific oro-facial characteristics that may increase their risk of developing oral health problems. Cleft lip or palate, downs syndrome, neurological disorder, cerebral palsy and visioning and hearing impairment are common medical conditions that require special dental care. Professors and students participated in this camp where the professors addressed the camp and spoke few words about the down syndrome children and importance of maintaining their oral hygiene. Mobile dental clinic has been taken to the camp and professors and students came through the oral screening and required restorations and oral prophylaxis to the down syndrome children is given

## REPORT AFTER CONDUCTING THE MEETING ON

### WORLD HEALTH DAY APRIL 2022

The college of Lenora Institute of Dental sciences conducted a special event on 7<sup>th</sup> April of 2022 as a part of "WORLD HEALTH DAY". The subject of this event was to focus on theme for World Health Day 2022-2024 "Our planet,our health". World health day mainly aims to enlightens people about overall health and well being with the knowledge of various aids and instructions in securing better and good healthy conditions.

World health day aims to provide healthcare services to everyone. This day is to make all the people aware of their health. Health encompasses not only bodily well being, but also mental and social well being. World health day is one of eight official global health campaigns by the world health organization. The main goal of the day is to raise awareness about a certain health topic in order to highlight a World health organization priority area of concern. Every year, world health day focuses on contemporary health issues that require immediate attention, with varied themes. On this world health day the students conducted awareness program about health, various diseases, prevention and cure of diseases, surrounding hygienic conditions to children and adults.

## REPORT AFTER CONDUCTING THE MEETING ON

### National doctors day july 1<sup>st</sup>- 2022

The students of Lenora Institute of Dental Sciences conducted a special event on 1<sup>st</sup> july -2022 as a part of national doctors day, The vital subject of the event was to focus on "Family Doctors on the Front Line"

No doubt, Doctors play a significant role in our lives. The absolute first and the last event of our lives start with the doctors during our birth and end during the time of death. Their dedication and passion for saving lives are what makes them 'real heroes' in our society. The contribution of doctors to human health history is beyond comparison. One of the major contributions of doctors is that they are improving and saving lives by putting efforts to mitigate discomforts caused due to diseases and help live their life to the fullest.

The role and importance of doctors in our lives have always been valued. During the time of the Covid-19 pandemic, they were working non-stop like a soldier to save lives by risking their own, and they were called "COVID WARRIORS"! The extraordinary spirit our doctors have presented in the challenging times calls for a special mention. Their tireless and heroic efforts have been saving countless lives and they continue to do so without an iota of discomfort.

## REPORT AFTER CONDUCTING THE MEETING ON SPREAD HEALTHY SMILES

**JULY 2022**

The Give Kids A Smile program was created by the American Dentist Association in 2003. It was a way for dentists to come together with their communities to provide dental services such as oral health, education, screenings, preventive health, and treatment to children in families who cannot afford the treatment cost. This initiative oral health education programme have been taken into consideration and program has been conducted by department of pedodontics and preventive denistry in Lenora institute of dental sciences on July 11th 2022.

A special camp has been conducted in our instituiton as an awareness programme among the primary school children. Professors and students took active participation in this programme and spoke about the importance of oral hygeine,brushing techniques,dietary habits . Oral screening and needful treatments such as oral prophylaxis and restorations with the help of mobile dental clinic have done. People of the locality has been distributed with a brushing kit and needful things to the remote area.

## REPORT AFTER CONDUCTING THE MEETING ON

### ORAL HEALTH DAY MARCH 2022

The college of Lenora Institute of Dental sciences conducted a special event on 22nd march of 2022 as a part of "ORAL HEALTH DAY". The subject of this event was to focus on theme for World Oral Health Day 2022-2024 "Be proud of your mouth for your happiness and well-Being". World Oral health day aims to empower people with the knowledge of various aids and instructions in securing good oral hygiene and oral health.

Oral diseases are a major health concern for many countries and have negative impact on people throughout their lives. Oral diseases accompanying oral cavity leads to pain and discomfort, social isolation and loss of self-confidence of an individual, and they are often linked to other serious health issues. And yet, there is no reason to suffer: most oral health conditions are largely preventable and can be treated in their early stages. On this day students and professors and students actively participated in promoting the importance of oral health and its hygiene.oral prophylaxis, restorations ,caries preventive treatments have done to the patients where the camp has been conducted.

<b>TITLE OF TH EVENT</b>	World oral health day
<b>EVENT START DATE</b>	March 22 <sup>nd</sup>
<b>EVENT END DATE</b>	March 22 <sup>nd</sup>
<b>DESCRIPTION</b>	<p>The college of Lenora Institute of Dental sciences conducted a special event on 22nd march of 2022 as a part of "ORAL HEALTH DAY". The subject of this event was to focus on theme for World Oral Health Day 2022-2024 "Be proud of your mouth for your happiness and well-Being". World Oral health day aims to empower people with the knowledge of various aids and instructions in securing good oral hygiene and oral health.</p> <p>Oral diseases are a major health concern for many countries and have negative impact on people throughout their lives. Oral diseases accompanying oral cavity leads to pain and discomfort, social isolation and loss of self-confidence of an individual, and they are often linked to other serious health issues.</p>

## REPORT AFTER CONDUCTING THE MEETING ON ANTI RAGGING

DAY JULY 2022

The college of Lenora Institute of Dental sciences conducted a special event on 21<sup>st</sup> July of 2022 as a part of “ANTI RAGGING DAY”. Ragging is “Any disorderly conduct whether by words spoken or written or by an act which has the effect of teasing, treating or handling with rudeness any other student, indulging in rowdy or undisciplined activities which causes or is likely to cause annoyance, hardship or psychological harm or to raise fear or apprehension thereof in a fresher or a junior student, or asking the students to do any act or perform something which such student will not in the ordinary course and which has the effect of causing or generating a sense of shame or embarrassment so as to adversely affect the physique or psyche of a fresher or a junior student.” The subject of this event was to focus whether ragging is a boon or ban. The event started by lighting the lamp by delegates followed by speech about acts and sections come under ragging. The director and principal ensure that no ragging takes place in the institute and its premises, by promulgating and enforcing stringent anti ragging measures, and making provisions for deterrent and hard punishment to defaulters.

## REPORT AFTER CONDUCTING THE MEETING ON

### ANTI TOBACCO DAY MAY 2019

The students of Lenora Institute of Dental Sciences conducted a special event on 31 of may, 2019 as a part of "ANTI TOBACCO DAY". The theme of this event was to focus on "tobacco and lung health" which witnessed participation of around 80 -100 volunteers.

The program started with an awareness rally around rajanagaram by the undergraduate students and post graduate students with an objective to highlight the health risks associated with tobacco use and to bring awareness on the harmful and deadly effects of tobacco use and second hand smoke exposure and to discourage the use of tobacco in any form. During the rally, information leaflets regarding the ill effects of tobacco use were distributed among the public. The leaflets depicted the various types of tobacco used, ill effects of tobacco; steps to reduce tobacco consumption and how to get prepare to quit the tobacco.

A free dental checkup was also organized and around 80-100 patients were screened for dental and oral hygiene problems
