ANTI TOBACCO DAY- 31 MAY 2021

The students of Lenora Institute of Dental Sciences conducted a special event on 31st of May, 2021 as a part of ANTI TOBACCO DAY, The vital subject of the event was to focus on "SAY NO TO TOBACCO" which witnessed participation of around 40-45 volunteers.

The event began with volunteers absorbing all the facts of consuming tobacco and how it slowly drags the smoker onto the tracks of death. The statistics are shown to everybody regarding death figures caused due to tobacco consumption left everyone awestruck. This was followed by a video screening that made everyone aware about the after effects of having tobacco in any form.

Students became well aware about the tobacco monster and made up their mind to stay miles away from it. The event concluded with students taking pledge with their fists raised up. The pledge pointed out assurance from students that they won't consume tobacco in any form such as cigarettes, beedis or gutkas, etc and would also encourage others not to do so. The event was a successful and truly made students to take "PLEDGE FOR LIFE".

DENTAL CAMP FOR SPECIAL NEEDS CHILDREN - 20 NOVEMBER 2020

The college of Lenora Institute of Dental sciences conducted a special event on 20th of November 2020 as "SPECIAL NEEDS CHILDREN" a part of dental health education for the special children who cannot maintain the oral hygiene properly. Special children are those with chronic physical, developmental, behavioral or emotional conditions. They usually have limitations on daily activities, and require more extensive dental and medical services. Cleft lip or palate, down's syndrome, neurological disorder, cerebral palsy and visioning and hearing impairment are common medical conditions that require special dental care.

Professors and students were actively participated in this camp where the professors addressed the camp and spoke about the special need children and importance of maintaining their oral hygiene. Mobile dental clinic has been taken to the camp and professors, students came through the oral screening and required restorations and oral prophylaxis to the special children are done.

NATIONAL DENTISTS DAY – 6 MARCH 2021

The college of Lenora institute of Dental sciences conducted a special event on 6th of March 2021 as a part of "NATIONAL DENTISTS DAY". This day is celebrated to express the gratitude towards the dentists and is celebrated for all dental health specialists, including dental surgeons, orthodontists, periodontists, pediatric dentists, prosthodontists, dental assistants, dental technicians, dental therapists, etc.

Students and professors were actively participated in this program and conducted a camp to enlighten the importance of tooth and its natural existing value to the patients. Professors spoke about the importance of dentistry in the current scenario and the requirements of aesthetics to the current society. They shared their knowledge about the Dental practice and the future of dentistry which has been rapidly improving in its own advancements. A camp has been conducted and oral screening, diagnosis and treatments such as restoration, scaling has been done on 36 patients and their feed back has been taken.

GIVE SMILES TO CHILD - 01 FEBRUARY 2021

The Give smiles to child program was created by the American Dentist Association in 2003. It was a way for dentists to come together with their communities to provide dental services such as oral health, education, screenings, preventive health, and treatment to children in families who cannot afford the treatment cost. This initiative program have been taken into consideration and the program has been conducted in Lenora Institute of Dental Sciences on 1st of February 2021.

A special camp has been conducted in our institution as an awareness program among the poor back ground locality. Professors and students took active participation in this program and spoke about the importance of oral hygiene. Oral screening and needful treatments such as oral prophylaxis and restorations with the help of mobile dental clinic have done. People of the locality had been distributed tooth brushing kit and needful things to the remote area.

ORAL HEALTH DAY – 20 MARCH 2021

The students of Lenora institute of Dental sciences conducted a special program on 20th of march 2021 as a part of "ORAL HEALTH DAY". The subject of the event was to focus on theme for World Oral Health Day 2021-2023. "As mouth is the mirror of human body". World Oral health day aims to empower people about the knowledge, tools and confidence to secure good oral health.

Oral diseases are a major health concern for many countries and negatively impact people throughout their lives. Oral diseases lead to pain and discomfort, social isolation and loss of self-confidence, and they are often linked to other serious health issues. And yet, there is no reason to suffer: most oral health conditions are largely preventable and can be treated in their early stages. On this day students and professors actively participated in promoting the importance of oral health and its hygiene. Restorations and oral prophylaxis treatments have been done to the patients where the camp has been conducted.

AIDS DAY – 1 DECEMBER 2020

Every year, on 1st of December, the world commemorates World AIDS Day. People around the world unite to show support for people living with and affected by HIV and to remember those who lost their lives due to AIDS.

This World AIDS Day, UNAIDS is highlighting the urgent need to end the inequalities that drive AIDS and other pandemics around the world.

Forty years since the first AIDS case was reported and still HIV threatens the world. Today, the world is off track from delivering on the shared commitment to end AIDS by 2030 not because of a lack of knowledge or tools to beat AIDS, but because of structural inequalities that obstruct proven solutions to HIV prevention and treatment.

WHO has chosen to focus on "Global solidarity, resilient HIV services" as the theme for this year. Meeting was conducted and explained about the modes of transmission and precautions to be taken while treating the HIV patients. PEP (Post Exposure Prophylaxis) is explained and motivated the students about the theme of WHO regarding "Global Solidarity, resilient HIV services.

World Cancer Day - 4 FEBRUARY 2021

Created in 2000 to be held on February 4, World Cancer Day is a global initiative led by the Union for International Cancer Control (UICC) to face one of our greatest challenges.

Campaign theme: I Am and I Will / Together, all our actions matter 2021—the ultimate year of the ‘I Am and I Will’ campaign—shows us that our actions have an impact on everyone around us, within our neighbourhoods, communities, and cities.

And that more than ever, our actions are also being felt across borders and oceans.

Camp was conducted and oral screening has been done to the patients. People were made to know about the importance of oral cavity and how far the disease might extend.

Blood Donation Camp -14 JUNE 2021

Lenora Institute of Dental Sciences undertook a great initiative to donate blood by students and staff in college.

Haemophilic survivors, people met with major road traffic accidents and blood disordered patients need blood transfusions for their survival.

The objective of this camp is collecting blood through voluntary blood donation are to provide safe and quality blood and blood components collected from voluntary donors, round the clock, at affordable cost to the general public and free of cost to the poor.

As a part of blood donation a group of 40 students along with 20 staff members has actively participated in this blood donation program and made the event successful.

Covid Protocol Awareness – 12 OCTOBER 2020

Covid-19 has made a great impact not only in the world but in dentistry also. Treatment protocols have been changed accordingly pre-covid and post-covid situations.

Lenora Institute of Dental Sciences conducted a donation program to the school children near by the institution.

Covid 19 protocols have been instructed to the school children by professors.

Mouth masks and sanitizers has been distributed to the school children and advised the children to follow the necessary precautions while coming to school and going back to home.
